ORIGINAL OWNER ----- ORIGINAL USE Dwelling PRESENT OWNER Sorrell Family, tenants PRESENT USE Dwelling WALL CONSTRUCTION Brick NO. OF STORIES 2 1/2		2. NAME Wickwire DATE OR PERIOD c. 1800 STYLE Early Federal ARCHITECT BUILDER 3. FOR LIBRARY OF CONGRESS USE	
4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC NO <p>This is a rather attractively proportioned house of the early Federal period. It has a flemish bond front and common bond sides and rear. The main house is three bays wide and one deep. There are no windows in the end walls. All of the windows on the front and rear are 6/6 sashes with flat brick arches. The winddws have panelled shutters on the first storey and louvered ones on the second. There is a central door with an overlight. This door has a hooded porch supported by Doric columns, and is of early Federal design. There are two six-over-six peaked dormers on the front of the house and three on the rear. There is a brick chimney enclosed within each end wall of the house. A two string brick cornice runs along the front and rear roof lines. The main house is flanked on either side by a very low two storey three bay wide brick wing. Each wing has a chimney on its outer end ^{gable} end. The composition of this house, symmetrical and well-proportioned, raises it above the ordinary brick farm houses of this region. The architectural plan, as well as the sophisticated treatment of the main door and porch make this structure worthy of note.</p> <p>At the rear of the property is a small brick smokehouse, probably contemporary in construction date with the main house. There are also old barns on the property. the house commands a fine view of the upper Chesapeake Bay.</p>			
5. PHYSICAL CONDITION OF STRUCTURE Endangered Very Good NO Interior Exterior fair
